Patient Responsibility Consent Form

☐ $25 Same day cancellation/No Show fee

As a provider's office we try to accommodate our patients as best as we can. Same day cancellations prevent us from scheduling other patients that may need to come in. As a courtesy, our office calls to confirm appointments the day before but appointments remain patient responsibility. We ask for at least a 24 hour notice when cancelling otherwise a $25 same day cancellation/ no show fee will be accessed. **NO EXCEPTIONS.**

We also acknowledge there may be dates that the practice will be closed or physicians may be out of the office and we'll have to cancel patient appointments. For these circumstances we will make it a priority to cancel these appointments in a timely manner.

☐ Referrals

It is the **patients' responsibility** to know if their insurance requires a referral and to obtain the referral from their PCP (both for initial visit and follow up appointments). A referral through the insurance will be required if you have an HMO plan (or any other plan that requires referrals), meaning there must be an authorization number, approval dates and must be approved by the insurance company.
A hand-written referral from PCP will not suffice. If the referral hasn't been received from the PCP's office at the time of your appointment, or you fail to bring one in with you, you will have to be rescheduled. This also applies to patients who are currently insured through PPO plans that may later switch to a HMO plan. **Please keep in mind that claims will be denied by insurance for no referral on file, resulting in patient being responsible for entire balance.**

☐ Outstanding Balance

Outstanding balances and office visit payments are due prior to seeing the doctor. We verify insurances before your office visits. This only includes co-payments and will not include Injections or other procedures done in office during your visit. These extra charges will be billed and it will be patient responsibility if insurance does pay/cover.

I, _____, understand and accept my responsibilities as a patient.

Billing the Patient

NORTH HOUSTON RHEUMATOLOGY ASSOCIATES

Initial: 6/1/2013

Revised:

Purpose:

This is a professional office that renders quality care to patients. Our duty is to preserve the dignity and confidentiality of our patients while receiving appropriate payment for the medical care we have provided. The following details this practice's policies and procedures regarding patient billing. This policy is intended to comply with the provisions of Texas Occupations Code Chapter 101.

Policy:

Office Visit

Payment is expected at the time of service unless arrangements have been made prior to treatment.

The office will file insurance claims for services rendered, but patients are not relieved of responsibility for payment because they have insurance unless a contract prohibits billing the patient, such as a contract between this practice and a HMO.

Patients must pay co pays or deductibles before surgical procedures are performed and at the time that office services are rendered, absent an insurance carrier contract provision to the contrary.

Most HMO and PPO patients have copayments, deductibles, or coinsurance. Our practice is obligated to provide medically necessary services to patients as required by the standard of care set by the profession and contracts with insurance carriers. We also must be mindful that in many cases, we cannot bill the patient for amounts left unpaid by carriers when we have a contract with the patient's insurance carrier. This practice keeps its agreements and will not bill or charge patients when our contracts do not permit it.

Complaints related to billed charges shall be directed to the billing office for resolution.

When Patients Are Billed

This office will honor any request a patient makes to use an alternative billing address, but any patient making such a request must provide a suitable alternative for billing purposes.

After we receive payment from the insurance company, this office will reconcile the explanation of payment, and then bill the patient for the unpaid amount unless a contract with an insurance carrier prohibits it.

Billing the Patient

Any claim denied due to patient ineligibility will be billed directly to the patient.

Initial: 6/1/2013
Revised:

Patients will be billed (when an insurance carrier contract does not prevent billing) when a claim is denied due to benefit limits, services are not covered, when there is a pre-existing condition or when there is still a patient responsibility balance on the account.

Mailing Statements

Statements will be mailed every 45 days and will be:

- Consistent,
- Professional in appearance,
- An accurate reflection of all charges and payments

Past Due Accounts
If the patient has not settled his or her account after the third statement ,We will send a letter to the patient stating that unless payment is received in 10 days, the practice will turn the account over to an outside collection agency.
At that point, we will turn any unpaid accounts over to a collection agency.

This practice DOES charge interest for amounts past due and left unpaid by a third-party payor.

This practice charges interest, a rate of 5.5% per annum is imposed on amounts commencing on the 60th day from and after the sum is due and payable.

I Acknowledge,

_____
